

**Please join us for an Online webinar.
Finding Health Information You Can Trust
Presented by: Carolyn Martin, MLS, AHIP
Wednesday, April 26th, 2017
10:00 - 11:00 A.M. PST
Registration is FREE!**

Finding health information that you can trust can be a daunting task given the vast online resources available at our fingertips. Join us for a presentation by Carolyn Martin, the Consumer Health Coordinator for the Pacific NW region of the National Network of Libraries of Medicine. She will help us figure out how to get the information you want and need from the comprehensive, but often overwhelming, National Library of Medicine and National Institute of Health databases. In addition, she will discuss what you should look for when evaluating the quality of health information on general Web sites and the importance of being a “cyberskeptic” if health claims sound too good to be true. She will walk us through reputable resources and provide links to information that librarians rely on.

About the Speaker: Carolyn Martin, MLA, AHIP is the Consumer Health Coordinator for the National Network of Libraries of Medicine Pacific Northwest Region (NN/LM PNR). Carolyn seeks to connect libraries and other community organizations with the freely available resources of the National Library of Medicine. Carolyn also contributes to a national blog, Bringing Health Information to the Community, offers free classes on consumer health topics, and coordinates the free monthly webinar, PNR Rendezvous, where experts present on health related topics.

Please sign up to attend the webinar today either on our website:
